

**Kikkoman Group
Environmental Preservation Activities Case Book
FY2019**

Thank you very much for accessing this site.

The Environmental Preservation Activities Case Book presents, categorized by theme, the environmental preservation activities carried out by affiliate companies of the Kikkoman Group.

As Kikkoman makes use of the work of microorganisms as the base of its operations, Kikkoman has been valuing harmony with nature since its inception. In particular, since the 1970s when social concerns over the relations between corporations and nature became apparent, Kikkoman has placed healthy environmental preservation as one of its management goals, and the group as a whole, has been taking various measures.

This Case Book gives more detailed relevant data which can be disclosed and specialized information which is requested frequently on selected environmental preservation activities in the Kikkoman Group:

- Major environmental preservation activities that are included in the Corporate Citizenship Report (or Data Book) published annually since 2006 (formerly Sustainability Report for 2004-2005, and Environmental Report for 2003 and before).
- Information on activities which should be recorded for reference.
- Unique examples of the Kikkoman Group which are related to activities by respective companies.

*For the cases which were not dealt with in the reports, the fiscal year when the cases were actively operated or the records of the cases were made, is indicated at the beginning of the respective articles.

**Some of the activities contained in this report have been terminated or suspended, but are included for the sake of record keeping.

I. Environmental Preservation System

| | |
|---|----|
| 1. Kikkoman Group Environmental Principles | |
| 1) Environmental Philosophy | 6 |
| 2) Action Guidelines | 6 |
| 3) Priority Action Assignments | 6 |
| 2. Voluntary Action Plan for Environmental Preservation (Voluntary Plan) | 7 |
| 3. Environmental Management Promotion System | |
| 1) History of the Environmental Management Promotion System | 11 |
| 2) Re-organization of the Environmental Management Promotion System to acquire ISO14001 certification for all domestic Kikkoman Group facilities as a whole | 12 |
| 3) Environmental Management Promotion System after Acquiring ISO14001 Certification for all major domestic Group facilities | 13 |
| 4. Environment Department | |
| 1) Before September 2009 | 17 |
| 2) October 2009 and Afterwards | 17 |

II. Preventing Global Warming

| | |
|--|----|
| 1. Transition of the CO₂ Emissions | |
| 1) FY2001-FY2005 | 18 |
| 2) FY2006-FY2010 | 18 |
| 3) FY2011-FY2012 | 19 |
| 4) FY2013-FY2015 | 19 |
| 5) FY2016-FY2018 | 20 |
| 2. Transition of the CO₂ Emissions per Unit of Production | |
| 1) Soy Sauce | 23 |
| 2) Soy Sauce, Noodle Soup and Barbecue Sauce | 23 |
| 3) Refining the CO ₂ Emissions per Unit of Production, a Group Goal was set | 24 |
| 4) New Goals for FY2016-FY2018 | 26 |
| 3. Approaches Taken by Plants | 29 |
| 4. Approaches in the Distribution System | 33 |
| 5. Approaches for Office Buildings | |
| 1) Kikkoman Noda Head Office Building (Noda City, Chiba) | 34 |
| 2) Kikkoman Tokyo Head Office Building (Minato-ku, Tokyo) | 36 |
| 3) Kikkoman General Hospital (Noda City, Chiba) | 36 |
| 6. Carbon Footprint of Products | |
| 1) Carbon Footprint of Products | 37 |
| 2) CFP of Soy Milk (1000ml) | 37 |
| 3) CFP of Soy Sauce (1 liter Bottle) | 38 |

III. Reducing and Recycling Waste and Byproducts

| | |
|---|----|
| 1. Transition of Recycling Rates According to the Food Recycling Law | |
| 1) Progress of Recycling Rates | 39 |
| 2) Recycling Rates by Major Domestic and Overseas Manufacturing Companies | 39 |
| 2. Transition of the Waste Generation per Unit of Production | 41 |
| 3. Use of Soy Sauce Cake | 43 |
| 4. Use of Soy Sauce Oil | 44 |
| 5. Use of Okara | 44 |
| 6. Use of Seaweed Residue | 45 |
| 7. Use of Wastewater Sludge Residue | 45 |
| 8. Research & Development to Make Use of High-Quality Byproducts | 46 |

IV. Improving Containers and Packaging

| | |
|---|----|
| 1. Kikkoman's Guidelines for Containers and Packaging, and the Containers and Packaging Committee | 48 |
| 2. Containers and Packaging for Soy Sauce | |
| 1) Glass | 49 |
| 2) Plastics (PET containers, etc.) | 50 |
| 3. Efforts by Nippon Del Monte Corp. for its Product Containers and Packaging | 53 |
| 4. Efforts by Manns Wine Co., Ltd. for its Product Containers and Packaging | 55 |
| 5. Partnership and Collaboration with Related Organizations | 56 |

V. Preserving the Water Environment

| | |
|---|----|
| 1. Transition of the Amount of Water Consumption and Water Consumption per Unit of Production | |
| 1) FY2012-FY2015 | 57 |
| 2) FY2016-FY2018 | 57 |
| 2. Approaches Taken by Plants | 59 |
| 3. Approaches to Preserve the Water Environment | 60 |
| 4. Supporting Activities to Mitigate Water Stress | 61 |
| 5. Dialogues with Suppliers | 62 |
| 6. Participation in the CEO Water Mandate | 62 |

VI. Promoting Environmental Management System

| | |
|---|----|
| 1. Environmental Management | |
| 1) Obtaining ISO14001 Certification | 63 |
| 2) Implementation of Environmental Audit | 64 |
| 3) "Cross Internal Audit" and "Environmental Close-Call Report" | 69 |
| 2. Employee Environmental Education | |
| 1) General Education | 70 |
| 2) Specialized Education | 73 |

VII. Promoting Environmental Communication

| | |
|--|----|
| 1. Communication with Local Communities | |
| 1) Environmental Management Internship | 78 |
| 2) University Internship | 79 |
| 3) Ecological Learning | 80 |
| 4) Summer Vacation Program for Environmental Learning | 82 |
| 5) Cooperation with Related Organizations | 82 |
| 2. Communication with the General Public | |
| 1) Participation in the exhibitions | 84 |
| 2) Exhibiting Kikkoman's Environmental Preservation Activities at the Kikkoman Soy Sauce Museum | 85 |
| 3) Publishing Corporate Citizenship Report (Data Book) and Environmental Preservation Activities Case Book | 85 |

VIII. Preserving Natural Environment

| | |
|---|----|
| 1. Approaches Taken by Domestic | |
| 1) Efforts at Chitose Factory | 86 |
| 2) Cooperation with the Wildlife Preservation Bureau of Hokkaido Corp. | 86 |
| 3) Participation in the Japan Business and Biodiversity Partnership | 86 |
| 4) Release Salmon Project | 86 |
| 2. Approaches Taken by Overseas | |
| 1) United States of America | 87 |
| (1) Environmental Preservation Activities at the California Plant | 87 |
| (2) Donation through the Kikkoman Foods Foundation Inc. | 89 |

| | |
|---|----|
| 2) Netherlands | 89 |
| (1) Cooperation with Environmental Purification | 89 |
| (2) Support to a Forestation Project | 92 |
| 3) Singapore | 92 |
| (1) Supporting the Development of a Man-made Lake | 92 |
| (2) “Nature Heritage Tree” was awarded to KSP | 93 |
| (3) Support to Mangrove Plantation | 93 |

IX. Environmental Consideration to Products

| | |
|---|----|
| 1. Use of Non-GMO (Genetically Modified Organism) Materials | 95 |
| 2. Residual Agricultural Chemical Inspection According to the Positive Listing System | 96 |

X. History of Environmental Preservation Activities

| | |
|---|----|
| 1. Awards Received (1995-) | 97 |
| 2. History of Environmental Preservation Activities | 99 |
