

Kikkoman Group Forest Resources Guidelines

The Kikkoman Group (“the Group”), is committed to sustainable use of forest resources under the Kikkoman Group Sustainable Sourcing Policy.

The Group will:

1. Minimize the use of goods made from forest resources, such as packaging materials, printed materials including brochures, office papers, and construction materials.
2. Actively promote the use of goods with sustainable certifications.
3. Not use goods sourced from illegal or unethical processes.
4. Notify the Group’s suppliers who supply goods made from forest resources of these guidelines.
5. Work with suppliers to address sustainability issues should they be identified.
