• History	<p>Our company was founded in 1961 with the aim of processing agricultural products as part of KIKKOMAN CORPORATION's diversification. After the foundation, we entered into a technical tie-up with US DEL MONTE CORPORATION, and started manufacturing and dealing in DEL MONTE TOMATO KETCHUP and TOMATO JUICE. We grew rapidly and became a leading tomato processor. Later, we produced KIKKOMAN's worcestershire sauce, all kinds of juice, coffee and soup. On the other hand, we developed an original technique for manufacturing apple juice and the technique named FOAM-MAT-DRY of manufacturing fruit & vegetable powder. So, as a total agricultural processor and as a member of the KIKKOMAN group, we obtained a firm position in the food industry. Under the banner of "WE GROW QUALITY", "A GIFT OF SUNSHINE"; which is a motto of the DEL MONTE worldwide, we are trying to produce and deal in safe and tasty food through developing, improving and innovating techniques.</p>
